

Live, learn, and build your future with adult education.

Adult education can help you build a better future for you and your family. At an adult education program, you can learn the skills you need to get a better job and improve your financial situation while building confidence and connecting with other students.

The MA Adult Education Help Desk can help you find no-cost (free) or low-cost adult education programs where you can:

- Improve your English
- Obtain a high-school equivalency credential
- Strengthen your reading, writing, and math skills
- Apply for college
- Train for a new job
- Prepare for the U.S. citizenship test

Find a program and take the next step toward your future!
